Social Institute Technology of India

AN ISO 9001:2015 CERTIFIED COMPANY

AN INDUSTRIAL TRAINING INSTITUTE

Internship notice

IMPORTANT ANNOUNCEMENT

Civil Engineering Courses In Online Mode

BIM Ready (Architecture/MEP/Structure) with Revit

Description: Focuses on using Revit, Navisworks, and AutoCAD for collaborative 3D modeling and project management.

Quantity Surveying and Estimation + CostX

Description: Covers cost estimation, billing, tenders, and contracting principles. Focuses on tools like CostX and Excel, essential for project financial control.

Project Management Professional (PMP) + Primavera P6

Description: Covers project planning, scheduling, risk management, and leadership, aimed at moving into management roles.

Structural Design & Analysis (STAAD.Pro & ETABS)

Description: Focuses on analysis of high-rise buildings and industrial structures, using limit state design.

AutoCAD Civil 3D for Road & Highway Design

Description: Specializes in road classifications, pavement engineering, traffic engineering, and 3D design using Civil 3D.

Environmental Impact Assessment (EIA) & Sustainability

Description: Focuses on environmental compliance, pollution control, and sustainable infrastructure standards.

Geotechnical Investigation and Foundation Design

Description: Covers soil mechanics, analysis of foundations, retaining structures, and site investigations.

Remote Sensing and GIS (QGIS/ArcGIS)

Description: Covers satellite imagery, land survey, and spatial analysis for urban planning and resource mapping.

FEA using ANSA & LS-DYNA for Structural Mechanics

Description: Advanced course for simulation of structural problems in both explicit and implicit environments.

Industrial Safety (HSE) & Risk Management

Description: Covers OSHA standards, accident prevention, and hazardous waste management, in high demand in construction industries.

All the courses that you have, you will get 1500 hunderd in duration 4 weeks and 6 weeks are completed.
